2022 Quality Awards Eligibility Requirements

Oklahoma Spine Hospital: Oklahoma City, OK

CareChex provides a continuum of quality awards ranging from national to local levels of achievement for up to 39 clinical categories. The awards are provided below, ranked in descending order of achievement:

| CareChex Quality Awards  | Eligibility Requirements*  |
|--|--|
| <b>#1 in Nation Awards:</b><br>-Medical Excellence<br>-Patient Safety      | Hospital must have the highest national ranking for the particular clinical category. A measure category score below the 25th percentile disqualifies a hospital from the award.   |
| <b>Top 100 in Nation Awards:</b><br>-Medical Excellence<br>-Patient Safety | Hospital must have a quality score in the top 100 for the particular clinical category.<br>A measure category score below the 25th percentile disqualifies a hospital from the<br>award.   |
| <b>Top 10% in Nation Awards:</b><br>-Medical Excellence<br>-Patient Safety | Hospital must have a national "check++" quality rating (top 10% nationally) for the particular clinical category. A measure category score below the 25th percentile disqualifies a hospital from the award.   |
| <b>#1 in Region Awards:</b><br>-Medical Excellence<br>-Patient Safety      | Hospital must have the highest regional ranking for the particular clinical category. A measure category score below the 25th percentile disqualifies a hospital from the award. Regional awards are based on the four (4) U.S. Census Regions.  |
| <b>Top 10% in Region Awards:</b><br>-Medical Excellence<br>-Patient Safety | Hospital must have a regional "check++" quality rating (top 10% in the region) for the particular clinical category. A measure category score below the 25th percentile disqualifies a hospital from the award. Regional awards are based on the four (4) U.S. Census Regions.   |
| <b>#1 in State Awards:</b><br>-Medical Excellence<br>-Patient Safety       | Hospital must have the highest state ranking for the particular clinical category. A measure category score below the 25th percentile disqualifies a hospital from the award. There must be at least 10 hospitals in the state eligible for the particular clinical category.  |
| <b>Top 10% in State Awards:</b><br>-Medical Excellence<br>-Patient Safety  | Hospital must have a state "check++" quality rating (top 10% in the state) for the particular clinical category. A measure category score below the 25th percentile disqualifies a hospital from the award.  |
| <b>#1 in Market Awards:</b><br>-Medical Excellence<br>-Patient Safety      | Hospital must have the highest "state" ranking in the combined statistical area (CSA) or metropolitan statistical area (MSA) for the particular clinical category; unless the market includes more than one (1) state in which case the hospital must have the highest "national" ranking in the CSA or MSA. A measure category score below the 25th percentile disqualifies a hospital from the award. There must be more than one hospital in the market and must have a percentile score that is > or = to 50%. |

\*All awards based on cumulative performance across data time period: October 2017 - September 2020.
